The college acknowledges that all procedures are to be based on the principles of procedural fairness and natural justice.

The notion of procedural fairness can be identified in the behaviour management procedures through the following mechanisms:

i. The college will maintain a procedural system (such as merit/demerit, card system, etc) that identifies causes and consequences for student behaviour. Procedural systems for behaviour management our outside of the scope of this policy but are available on request.

ii. Within the context of this policy, procedural fairness can be identified by noting the application of the hearing rule in the suspension & expulsion process, the process of appeals with access to the School Board, and the process of conducting an investigation.

   iv. Suspensions are to be in strictest confidence between the school, the student and the parent of the student.

Expulsion from School
