

Parent's Comments

- Female: The reason why we picked this school was because, first of all, we like the fact that it was a Christian school so it supported our beliefs at home.
- Male: I looked for a school where the discipline is primary thing, caring teachers, and a friendly environment.
- Female: The environment of the school was really important to me that my children also learn the same values that I have.
- Female: We like the small class sizes, that was also important. Some of the other schools we looked at were full to capacity. We wanted a more intimate experience.
- Male: I can clearly see the improvement in the attitude of my son. He's actually normally a very good student but he's more focused now, more focused now.
- Female: The interaction between the staff and the students is really important when you can see the teachers come out and have lunch with the students. You know that they've actually got a connection. They're not, "We are the teachers, they are the students."
- Female: I like the fact that the kids are listened to, there's that teacher support, and there's that real community feel about the school.
- Male: The teachers seems how they're motivated the children to really upscale their knowledge and skills. This is something special I find with this school so that attracts me to send my children here.
- Female: The best things I would say are the friendly staff, the beautiful, new classrooms, and the loving environment.
- Female: We're glad that we chose this school for many reasons. It supports our family values.
- Female: The children are supported in their learning. It's a great community feel. It's embracing. Yeah, so we're really happy.
- Male: Lastly, I see the improvement in my son. I moved my daughter as well here and she is doing her year eight in this school. I Highly recommend everybody to send the children here, back for education, happy, safe enrollment and turn out of time, 100%.
- Female: I'm glad I sent my children to Australian Christian College because they have furthered their Christian walk. They've learnt respect and they've learnt love for other people.
- Female: Any parent who was considering this school to go for it. We haven't regretted our decision at all and plan to keep our kids here all the way through.
- Female: Walk in the front door and book them in. Simple, that's it. Bring them along, they'll love it.
